

PRODUCTS & SOLUTIONS OVERVIEW

Account Provisioning

User provisioning and single sign-on for any school or district technology platform, resulting in a unified data integration point that reduces technology costs and resources.

"Gaggle works its magic once an hour, every hour, to migrate any changes in our system. It really couldn't be any easier."

Chris Whitlock
Director of Technology
Transylvania County Schools

Archiving

Affordable archiving solutions without any additional hardware or software while providing access to data 24/7 through an easy-to-use, web-based interface.

"Our conversion to Gaggle for email archiving from our previous vendor was one of the best decisions we made. I recommend Gaggle to anyone looking for a solid archiving solution!"

Jim Frye
District Technology Coordinator
Upper Sandusky EV School District

Email

CIPA-compliant email designed for K-12 schools. Gaggle Email includes extensive text filtering, inappropriate image detection and human monitoring.

"Gone are the days of going through reams of paper, collecting and hauling assignments home to grade, and tracking down students for missing work. Gaggle allows my classroom to run efficiently and virtually paper-free."

Jamie Breese
Teacher
Warren County Public Schools

Safe Classroom LMS

Create, collaborate and share lessons, transforming how educators teach and students learn. Designed specifically for the K-12 classroom, maintaining connections with students, parents and other educators has never been safer and easier.

"I have been using Gaggle exclusively to deliver my online instruction. Gaggle has made my life much easier because everything is all in one place!"

Andrew Clark
21st Century Literacy Facilitator
Bennett Elementary
Detroit Public Schools

Safety Management for Google Apps

Elevate Google Apps for Education into a full-featured, CIPA-compliant learning platform designed specifically for the requirements of K-12 schools.

"The real power of the integration is the filtering and monitoring of everything going into Google Drive. I don't think any school district should implement Google without at least considering the benefit and compliance that Gaggle adds to those tools."

Jim Culbert
Executive Director of Information Technology
Duval County Public Schools

Safety Management for Office 365

Enhance Microsoft's communications and productivity infrastructure with an added layer of safety, providing the highest level of CIPA compliance. Integrate archiving, proprietary filtering capabilities and human monitoring with Office 365, OneDrive and Yammer.

"Gaggle provides valuable services that ensure students use Microsoft Office 365 in a safe and appropriate manner."

Cameron Evans
Chief Technology Officer
Microsoft Corp.

PRODUCTS & SOLUTIONS OVERVIEW

Safety Management

Removes the need for educators to review questionable communication so they can focus on classroom instruction, greatly improving the safety and security of students—both online and in the real world—by having trained Student Safety Representatives monitor student content 24/7.

"Gaggle has taken hours of work off our teachers' plates so they can concentrate on student learning."

Kathy Wegley
Instructional Technology Coordinator
Northbrook School District 27

Mobile Learning

Easily implement mobile technology inside and outside of the classroom by extending the use of Gaggle Collaboration Tools with powerful Apps for Android, iPad and iPhone devices. Collaborate, engage and connect with students in safe, 1:1 or BYOD learning environments.

"With the Gaggle App, we're able to get iPads in the hands of students. Gaggle makes it easy for teachers to share documents and students to submit assignments."

Tammy Rushing
District Facilitator of eLearning
& Technology Staff Development
Mesquite Independent School District

Professional Development

Extend the knowledge and utilization of Gaggle and other tools, such as Google Apps for Education, with training and professional development designed for administrators, facilitators, instructional coaches and teachers. Choose from on-site or online offerings, ranging from a refresher on Gaggle tools, to customizable application- or curriculum-based courses.

"Our Gaggle trainer's years spent in the classroom made her very effective. My staff really responded to the way she conducted the sessions, which were interactive and collaborative. I also was provided editable copies of training materials so that I could customize them for our schools, optimizing the materials' value as well as my time."

Susan Dupre
District Technology Facilitator
St. Mary Parish Schools

School & District Websites

Turn your website into a communication and collaboration platform, including a unified online experience with access to any learning management system, gradebook, student information system, school store, social network and more. Take pride in a website that truly represents your district or school.

"I've been waiting seven years for Gaggle to offer website hosting for schools and districts. The care and attention they give to districts makes Gaggle an obvious choice for school and district websites."

Candace Hosey
Executive Director
Technology and CTE Services
Rowan-Salisbury School System

ALL WITH THE CUSTOMER SERVICE YOU DESERVE...

Gaggle is committed to providing quick and responsive personal attention to customer questions and needs. A highly experienced team of customer service representatives is available to assist users via phone, email and live chat.

"I can't tell you how nice it is to speak with someone rather than pushing buttons and hoping to get through endless phone menus."

Duyen Blanton
Technology Coordinator
Sabine Pass Independent School District
